

ACCENT® OPAQUE

SUPER SMOOTH

TEXT / COVER

DID YOU KNOW

Accent Opaque Super Smooth is often used as an alternative to coated paper?

Coating helps to keep the ink on the surface of the paper, which creates crisp text and images, but the same effect can be achieved through calendering, or passing the paper through steel rolls that exert pressure and compress the fibers. This process ensures the surface of the paper is extremely level and uniform.

The smoother the paper, the better the ink holdout, and Accent Opaque Super Smooth is highly calendered. This, combined with its 97 brightness, is why Accent makes colors pop! Plus, the soft, satiny texture makes it ideal for high-end collateral or brand promotions.

SUPER SMOOTH

TEXT / COVER

VALUE

Leave room in the budget for finishing with a premium product at a not-so-premium price.

PERFORMANCE

High brightness and super smooth texture together ensure a bright, consistent on-press performance whether you print offset, digital inkjet or Indigo®.

VARIETY

Choose from sheets in 5 basis weights, rolls in 4 basis weights, white and warm white colors and options with ImageLok® Technology for optimization on digital inkjet devices or Indigo treatment for optimization on HP® Indigo devices.

AVAILABILITY

Accent Opaque Super Smooth is there when you need it. Talk to your Sylvamo sales representative to learn more about delivery times specific to you.

SUSTAINABILITY

Communicate a warm, natural message with the Forest Stewardship Council® (FSC) certified Accent Opaque Super Smooth.
